## 9100 and 9100D Blasting Cap Protectors

#9100 Single cap protector holds (1) standard blasting cap  
1.3 pounds, 1.5 inches diameter and 6" long

#9100D Dual cap protector holds (2) standard blasting caps  
3 pounds, 2" diameter, 7.25 inches long

Cap protectors are made from titanium and can be reused. A rotating plug will hold cap inside tube until rotated a quarter turn to remove blasting cap. Both ends can be removed for cleaning.
