

Product Information Sheet

Part #: C-TRIP

Product Name: C-TRIP Green Laser Trip Wire Illuminator

**Hand Held
Product SKU:**

C-TRIP-CB
C-TRIP-MC
C-TRIP-BLK
C-TRIP-ACU

Must Select SKU / Pouch

Coyote Brown
Multicam
Black
ACU

**SKU with Optional Mount Kit
6" Cable Switch & 1" Offset Rail Mount**

C-TRIP-KIT-CB
C-TRIP-KIT-MC
C-TRIP-KIT-BLK
C-TRIP-KIT-ACU

Product Headline, Copy, and Specifications

Portable, Rugged & Waterproof - Illuminate and Fluoresce Trip Wires

Use this Green Laser Line Generator to illuminate and fluoresce trip and command wires. The C-TRIP emits a brilliant green laser line. The C-TRIP produces a highly visible 60 degree fan which projects a 15' Line @ 15'. Easily scan doorways, halls or stair wells with one pass. Choice of Multicam, Coyote Brown, ACU, or Black modular pouch for transport and stowage. Laser power actuator on battery end cap assembly; lanyard loop and power lockout function. Six (6) hour continuous on operation. 1" knurled tube - easily attach to standard 1" tactical light mounts. In use by operational forces in theater - Army, USMC, USAF, SOF, NSW and Navy EOD. Also Federal & Municipal Bomb Techs.

Features & Box Contents

- Waterproof
- Shock Resistant
- Ruggedized Optics
- Constant On/Off Click Switch
- Power Lockout Functionality
- Manual, Quick Start User Guide
- Switch Loop Attachment for Lanyard
- 2 pcs CR123A Lithium Batteries / 1400 mAh
- Nylon Modular Pouch (MOLLE Style – Berry Compliant)

Specifications:

Wavelength (Color) - 532 nm (Green - 98% IR Filter)	6000 Series T6 Aircraft Grade Aluminum
Output Power - < 1 mW	1" Knurled Tube, Lanyard Loop
FDA Safety Class IIIa / ANSI - IEC Class I	Six (6) Hour Battery Life
Line Output – 60 Deg. Fan, 15' Line @ 15'	Product Warranty - 1 Year
Diode Circuit Type – Computerized APC	

Field Use & Tactics

The Z-Bolt® C-TRIP has been recently adopted by US Navy EOD and is now deployed in the operational forces. EOD techs use to illuminate and fluoresce trip and command wires. The C-TRIP paints a brilliant 60 degree fanned vertical green laser line, measuring 15' at 15' distant. Easily scan doorways, halls or stairwells with one pass. **Field Report – Navy EOD Tech, EOD Group Two:** "I have been evaluating the C-TRIP (Green Laser Trip Wire Illuminator) extensively with various Navy EOD teams. The unit has been put to good use for trip wire searches in a high speed assault atmosphere.

Product Information Sheet

...continued from page 1

Navy EOD doesn't have all day to clear areas during assaults because of the fast pace. This tool allows quick scanning of the area in a fraction of the time spent using a green dot laser. It has done well with all trip wire types ie, copper wire, metal wire, fishing line, and regular thin rope type material. The tool is also good to highlight the path of command wire quickly. The guys really like it". The C-TRIP Green Laser Trip Wire Illuminator is safe to operate, waterproof, and shock resistant. **New Features for 2013:** 1" Knurled Tube for superior grip and portable, hand held use. Power lockout functionality.
