K0950 Muzzle Brake (Steel) **K0950T Titanium muzzle brake**

- Clamps to muzzle end of standard PAN™ barrel or T3 Disrupter tip, or T3 18 inch barrel with included adapter
- Weighs just 3.2 pounds (steel) 1.8 (titanium)
- Redirects muzzle blast away from a close target
- Reduces recoil 45% to 74% (depending on ammo)
- No expendable parts
- Very minimal maintenance
- No change in ammo velocities
- (2) Laser sights fits on brake or use standard PAN laser with adapter plug
- (Can make the dots become one at a set distance, approx 3')
- The clamp can stay on the barrel while the muzzle brake can screw on and off to load a water shot
