Tactical tripod stand

- This tripod stand has three adjustable legs and one fixed length leg.
- The legs collapse together for storage and extend out for height adjustment and angle shooting
- This tactical stand comes with a sleeve for the tactical barrel. The sleeve fits onto a standard $\frac{1}{4}$ -20 screw. There is a screw on top and bottom of stand for different height and angle adjustments.
- Stand comes with a velcro strap for holding legs together in storage and to tie to a pole, fence or other object.
- Stand weighs 1.75 lbs and sleeve weighs .5 lbs
- If barrel is level, height abilities are from 1 inch to 11.25 inches off ground
